# ABOUT THE COMPANY

Limburg Power Solutions is a leading company based in Maastricht, the Netherlands, specialized in providing top-quality used industrial gas generators and new Genuine or OEM spare parts to clients worldwide.

Since its establishment in 2017, we have built a notable reputation for delivering reliable and cost-effective solutions to meet the needs of our customers.

The core business focuses on import and export of high-quality used industrial gas generators and Genuine or OEM spare parts of leading brands such as MWM, DEUTZ, JENBACHER, MTU, CATERPILLAR, and WARTSILA. We understand that our clients need equipment that can withstand rigorous demands and our products are carefully selected to ensure that they meet the acceptable standards of performance, reliability and possible maximum client satisfaction.

We are committed to providing exceptional customer services and supports. Our team consists of experienced professionals who are dedicated to meet our clients demands and requirements. We are ready to timely providing technical advice, assistance, and supports which have already achieved clients' trust and dependency.

## ABOUT THE COMPANY

We are proud of our reputed quality, reliability, and technical professionalism including commitment to maintaining our standard as one of the leading suppliers of used industrial gas generators and spare parts. If you are looking for new or used equipment (e.g., used gas/diesel generator, heavy equipment, air compressor, transformer etc.) or spare parts for your existing machinery, Limburg Power Solutions is your perfect choice. You are cordially invited to contact us to learn more about our products and services. We highly value bilateral trust-based business relationship.
